KILLAMSETTY RAHUL

+91 6304443778 ◇ killamsettyrahul05@gmail.com ◇ linkedin.com/in/rahul-killamsetty

OBJECTIVE

Competitive programmer and passionate learner with expertise in Python, SQL, data structures, algorithms, and database management. Dedicated to implementing innovative AI/ML solutions and contributing to impactful research in computer vision and cloud technologies.

EDUCATION

B.Tech, Computer Science Engineering(AI and Robotics) 2021 - 2025
Vellore Institute of Technology, Chennai Current CGPA: 8.33/10

SKILLS

Programming Languages	Python, C, C++, Java, SQL
Libraries	Matplotlib, Pandas, Numpy, OpenCV, NLTK, Scikit-learn, TensorFlow
Tools	StarUML, Ltspice, UiPath, Tableau, Power BI, Jupyter Notebook

WORK EXPERIENCE

Data Science Intern Sep 2023 - Nov 2023
Indian Institute of Chemical Technology (CSIR-IICT) *Hyderabad, Telangana*

- Implemented machine learning models for the prediction of CO_2 solubility in physical solvents.
- Utilized Python for data cleaning, preprocessing, and implementing machine learning algorithms.

Report Management Co-Lead Jan 2023 - Aug 2023
Nature Adaption Ecology(NAE) Club , VIT Chennai *Chennai, Tamil Nadu*

- Authored detailed documentation for club events in collaboration with multidisciplinary teams

PROJECTS AND PUBLICATIONS

Hybrid Deep Learning Approach for MRI-Based Neurological Brain Disorder Classification

- Developed a 3D DenseNet model with a self-attention mechanism to classify neurological brain disorders using the OASIS dataset.
- Classified neurological disorders such as Alzheimer's disease and cognitive impairment based on Clinical Dementia Rating(CDR) scores from the OASIS dataset.
- PUBLISHED in Brain Network Disorders (Elsevier, 2025). **DOI:** 10.1016/j.bnd.2025.06.002

Beam light Detection and Intensity Analysis using Computer Vision

- Developed an OpenCV-based, real-time system for adaptive beamlight detection and intensity analysis to enhance nighttime driving safety.
- PUBLISHED at ICCIDS 2025 (8th International Conference on Computational Intelligence in Data Science), EquinOCS Springer Nature, Tamil Nadu. **DOI:** 10.1007/978-3-031-98356-6_16

Real-Time Eye-Blink Detection with Alert system and Video Analysis

- Built a real-time blink detection and anomaly alert system using OpenCV and cvzone.
- Implemented visual and auditory alerts for anomalies such as excessive blinking or prolonged eye closure to enhance safety applications.

CERTIFICATIONS

- AWS Certified Cloud Practitioner, Amazon Web Services, 2025
- Microsoft Certified: Fabric Analytics Engineer Associate, 2025
